PRESS RELEASE

Kitchen Design Center Publishes Two-Tone Kitchen Cabinetry Project

Kitchen Design Center Fairfax

November 24, 2026

FAIRFAX, VA - Kitchen Design Center, the Fairfax remodeling company also known as KDC, has published a project profile of a kitchen cabinet supply job completed in June 2026 for a Springfield homeowner. The company supplied TimberPeak cabinetry in a Dove White and black combination, according to the profile on its website. The work is attributed to the KDC Design Team and is listed as a modern kitchen.

The profile describes a modern shaker kitchen with white cabinetry along the perimeter and a long black island with a waterfall countertop. A built-in bench with cabinets under a window adds seating and storage, and warm floating shelves sit in the bright, open room. The full project profile is available on the company website.

“The main challenges were finding the right color combination and modifying the cabinets to fit the kitchen's specific measurements,” said Recep Aksoy, owner of Kitchen Design Center. “Our designer and team coordinated closely and planned carefully so every cabinet fit and the project kept moving forward.”

The project page lists plywood construction, a modern shaker door style and a two-week duration for the cabinet supply scope. TimberPeak is among the lines on display at the Lee Highway showroom, where designers can compare it with other brands the company carries. The brand's cabinet line page identifies it as a Maryland-based supplier of ready-to-assemble and semi-custom kitchen and bath cabinets, organized into Timeless Shaker, Contemporary, Nostalgic and Doric collections.

Kitchen Design Center serves Springfield, including the 22150 ZIP Code and neighborhoods such as West Springfield, Cardinal Forest, Daventry and Saratoga, from its Fairfax showroom about 10 miles north of the community. The usual routes run along Interstate 95 and Rolling Road, with Old Keene Mill Road, Backlick Road and the Franconia-Springfield Parkway also feeding the trip. A page on the company's work in Springfield notes that many homes in the area are 1960s through 1980s colonials, split-levels and townhomes. This job is listed as cabinet supply rather than a full remodel.

Design, cabinetry, countertops and installation are handled in-house, and each homeowner keeps a single point of contact from the first sketch to the final walkthrough. Kitchen and bath work is planned at the Fairfax showroom and installed by the company's own team. A typical project follows four steps, starting with a consultation and moving through design and approval, the build and a final walkthrough. Readers can also find Kitchen Design Center on Google Maps .

The showroom is open Monday through Friday from 9 A to 6 PM and Saturday from 10 AM to 4 PM, and can be reached at +1 703-244-1220. Cabinet door styles and full-size stone samples are available there for in-person comparison. The company serves Fairfax, Vienna, Oakton, McLean, Annandale, Burke, Falls Church, Arlington and other Northern Virginia communities.
