Trendy Cabinets Publishes Kitchen Layout Ideas Guide

Trendy Cabinets Kitchen, Bath & Closet

November 24, 2026

ROSWELL, GA - Trendy Cabinets has published a kitchen layout guide. Released on November 18, 2026, the article walks through six common layouts and the planning rules designers use to check them. The company is a cabinet showroom in Roswell that also supplies bathroom vanities, countertops and closets.

“Before you choose a door style, a color or a countertop, one decision shapes how your kitchen works every single day: the kitchen layout,” said Eddie Erdogan, spokesperson for Trendy Cabinets. “The layout decides how far you walk between the sink and the range, where guests sit, how many people can cook at once and how much cabinet storage fits in the room.”

The guide covers one-wall, galley, L-shaped, U-shaped, island and peninsula kitchens, and says the right choice depends mostly on the shape of the room, the doors and windows, and whether the kitchen is open to the living space. Every layout example is a kitchen the company designed for homeowners around Atlanta. The full planning guide is available on the Trendy Cabinets website.

The article tests a layout with the work triangle connecting the sink, the cooktop and the refrigerator. National Kitchen and Bath Association guidelines cited in the guide say each leg should be between 4 and 9 feet and the three legs together no more than 26 feet. Aisle widths are listed as at least 42 inches for one cook, 48 inches for two, and 36 inches for a walkway.

A galley kitchen places two parallel cabinet runs across an aisle and is described as efficient for one cook when the aisle is wide enough. An L-shaped kitchen runs cabinets along two connecting walls and can leave room for a table or an island. A U-shaped plan wraps three walls, and a one-wall plan keeps every cabinet and appliance on a single wall.

The article treats an island as an addition to a one-wall, L-shaped or U-shaped kitchen, not a layout on its own. A room that cannot keep the same aisle clearances around an island is directed toward a peninsula. Related reading includes an island size guide and a cabinet size guide , both published on November 17, 2026.

The guide tells readers to start with the room's dimensions, how many people cook, whether seating is needed, and whether plumbing and gas can move. Keeping the sink, range and refrigerator in place is described as one of the most effective ways to control cost. The advice is meant to be used with the company's remodeling service when a cabinet plan is part of a larger kitchen update.

Trendy Cabinets encourages homeowners to review layouts in person at its showroom at 4401 Shallowford Road, Suite 156, in Roswell. Visitors can compare cabinet lines and kitchen displays, and the company prepares a 3D rendering before cabinets are ordered. The showroom is open Monday through Saturday from 10 AM to 6 PM and can be reached at +1 678-324-5511. The company serves Roswell and other Atlanta-area communities.
