Kitchen Remodeling Services

Elegant Kitchen and Bath Kitchen Remodeling Herndon,VA

August 29, 2026

HERNDON, VA - August 28, 2026 - Elegant Kitchen and Bath is highlighting the design-forward process behind its Kitchen Remodeling service, giving Northern Virginia homeowners a clearer look at how a kitchen project moves from first sketch to finished space. The process centers on 3D visualization technology and direct access to partner showrooms, both aimed at reducing the guesswork that typically surrounds a kitchen renovation. Homeowners planning a kitchen remodel often struggle to picture the finished result before construction begins, which can lead to costly mid-project changes once cabinets, countertops, or layouts are already underway. Elegant Kitchen and Bath addresses this with its Kitchen Visualizer tool, allowing clients to preview cabinet styles, countertop materials, and layout changes in a rendered 3D view before any work starts. The company's six-step process moves from an initial consultation through virtual visualization, in-person showroom visits, material selection, project planning, and dedicated crew execution, giving homeowners a defined path with fewer surprises along the way. Clients also get scheduled visits to partner showrooms, including Kohler and select stone suppliers, to see cabinetry, fixtures, and countertop materials in person before finalizing a design. Kitchen remodeling projects with Elegant Kitchen and Bath typically range from \$15,000 to \$50,000 depending on scope, and the company provides itemized estimates upfront along with flexible financing options. Full project management is handled in-house, covering demolition, plumbing, electrical work, cabinetry, countertops, and finishes under a single point of contact rather than multiple subcontractors. "Our clients make better decisions when they can see their kitchen before a single cabinet is installed," said Michael Richardson, President of Elegant Kitchen and Bath. "The visualization step alone has cut down on the change orders we used to see mid-project, because homeowners are confident in their choices from day one." The kitchen remodeling process is available across the 22 Northern Virginia cities and counties the company serves from its Herndon studio, including Reston, Chantilly, Centreville, Sterling, Ashburn, and Fairfax. Elegant Kitchen and Bath has completed more than 2,000 remodeling projects over 22 years in business and holds recognition including an Angi Super Service Award, a ProRemodeler Award, and the 2024 Best of Houzz Service Award. The company is also a member of the National Association of the Remodeling Industry (NARI) and offers kitchen styles ranging from traditional to contemporary, using materials selected for durability as well as design. Homeowners can request a kitchen remodeling cost estimate through the company website or by phone, and can review the full Northern Virginia budget breakdown before scheduling a kitchen remodeling consultation in Herndon or a nearby community. #### For more information about Elegant Kitchen and Bath, contact the company here: Elegant Kitchen and Bath (703) 763-4277 2465 Centreville Rd, J21, Herndon, VA 20171 Google Business Profile: <https://maps.google.com/?cid=5346401424316278847>
