

PRESS RELEASE

Elegant Kitchen and Bath Outlines Kitchen Cabinet Options

Elegant Kitchen and Bath Kitchen Remodeling Herndon,VA

October 10, 2026

HERNDON, VA — October 10, 2026 — Elegant Kitchen and Bath , a Northern Virginia remodeling company based in Herndon, has outlined the cabinet lines and planning process it offers homeowners updating an existing kitchen or adding a new one through a home addition. The company supplies and installs custom and semi-custom cabinetry as part of its design-and-build projects across 22 cities and counties in the region.

Homeowners can choose from several cabinet manufacturers, including Medallion Cabinetry, Design-Craft, Fabuwood, ForeverMark, J and K Cabinetry, and Waypoint. According to the company, these lines cover a range of construction methods, styles, finishes, and budgets. Design-Craft offers frameless construction, which provides more usable interior space, while J and K Cabinetry produces solid wood cabinetry. Medallion Cabinetry, made by Elkay, offers a wide selection of wood finishes and options that can also be used in bathrooms and other living spaces.

Cabinet selection is built into the company's three-step process. Projects begin with an in-home consultation and design session, followed by a 3D design review and material ordering, and then installation by the company's own team. The 3D design stage allows homeowners to review cabinet layout, door style, finish, and storage placement alongside countertops, backsplashes, and lighting before materials are ordered.

“Cabinets set the layout, the storage, and much of the budget in a kitchen, so they need to be planned together with everything around them,” said a company spokesperson. “Reviewing the full design in 3D helps homeowners make those choices with confidence before anything is ordered.”

The cabinet program supports both standalone kitchen remodeling projects and larger home addition remodeling work. Kitchen expansions are one of the addition types the company builds, along with family rooms, primary suites, laundry rooms, mudrooms, and sunrooms. In addition projects, the new cabinetry is planned to match the layout, flow, and character of the existing home. Additions commonly require permits for zoning, structural, foundation, and utility work, and the company includes permits in its itemized cost estimates along with materials and labor.

The announcement builds on the company’s recent expansion of its kitchen cabinets and kitchen remodeling services across Northern Virginia. Countertop options available with new cabinetry include Cambria, granite, MSI quartz, and Silestone.

Elegant Kitchen and Bath reports more than 2,000 completed projects and a sales and design team with more than 16 years of combined experience. The company is licensed and insured, is a member of NARI, and has received the Best of Houzz Service Award and the Angi Super Service Award. It serves Herndon, Reston, Chantilly, Centreville, Ashburn, Sterling, Fairfax, McLean, Vienna, Leesburg, Alexandria, Arlington, and surrounding communities.

Consultations can be scheduled through the company’s website. Office hours are Monday through Friday from 9 a.m. to 6 p.m. and Saturday from 9 a.m. to 5 p.m.
