

PRESS RELEASE

Furnirem Expands Living Room Line with Solid Wood Coffee Tables

Furnirem Store

October 22, 2026

SHERIDAN, WY — October 22, 2026 — Furnirem, a family-led maker of handcrafted solid wood furniture, has expanded the living room offering at the Furnirem Store with a collection of coffee tables in round, oval, rectangular, and nesting designs. The collection pairs solid wood and tempered glass tops with the sculpted wooden bases the brand is known for.

The collection includes ten designs. Several tables use solid wood butterfly legs, a base style also used across Furnirem's dining tables, while a round glass model sits on faceted prismatic legs. Oval and rectangular solid wood tables offer a simpler profile, and nesting sets, including a solid pine C-table set, allow two tables to be pulled apart for extra surface space or tucked together in smaller rooms.

Tables are made primarily from oak, walnut, and pine, with hardwoods sourced from FSC-certified forests. Finishes are hand-applied using water-based stains and low-VOC sealants. According to the company, most coffee tables range from about 36 to 54 inches long and stand 16 to 18 inches high, with smaller models for compact living rooms.

Ahmet Dilber, Head of Design at Furnirem, said: "A coffee table is the piece people touch and use most in a living room, so it has to hold up to daily life while still looking intentional. We designed the bases first and built each top around them, which is why the same leg shapes can carry a solid oak surface or a glass top."

Each piece is made to order in the company's own workshop, where CNC joinery is combined with hand finishing. Tables ship flat-packed to reduce freight volume and typically take 15 to 30 minutes to assemble. Standard delivery within the continental United States takes five to seven business days, with expedited options available at checkout.

The coffee table collection follows the recent expansion of Furnirem's Customizable Dining Table Set line, which added modular sizing, base configurations, and finish options for dining rooms. Matching wood tones and leg styles allow customers to coordinate coffee tables, side tables, and dining furniture across open-plan spaces.

Furnirem offers a 30-day return policy, a one-year manufacturer warranty, and financing through Klarna and Afterpay. The company reports serving more than 10,000 customers worldwide.

About Furnirem

Furnirem is a family-led e-commerce brand making handcrafted solid wood furniture, including dining and coffee tables, side tables, table legs, and home accessories, primarily in oak, walnut, and pine.
