

GBC Kitchen & Bath Offers Basement Remodeling Services Across Northern Virginia

GBC Kitchen and Bath Alexandria · September 08, 2026

ALEXANDRIA, Va. – September 6, 2026 – GBC Kitchen & Bath, a design-build remodeling company serving Northern Virginia, Maryland, and Washington, D.C., continues to offer basement remodeling services alongside its kitchen, bathroom, cabinet, and countertop divisions. The company, which has operated in the region since 2001, runs showrooms in Alexandria, Ashburn, Columbia, and Rockville, and serves homeowners across Fairfax, Loudoun, Arlington, Prince William, Montgomery, and Howard counties.

Basement remodeling projects handled by GBC Kitchen & Bath cover the full scope of finishing an underused lower level, including waterproofing, framing, electrical and plumbing work, and interior finishing. The company builds out entertainment and media rooms, home offices, guest suites, home gyms, wet bars and kitchenettes, and bathroom additions as part of its basement renovation projects, along with egress window installation, custom built-in storage, flooring, and laundry relocation. According to the company, a finished basement adds usable square footage to a home, supports a moisture-controlled living environment, and can contribute to overall property value when completed to current building code standards.

GBC Kitchen & Bath structures its remodeling projects, including basement renovation work, around a four-step process: an initial consultation to review the homeowner's goals and budget, a design and planning phase that produces detailed plans for the space, a construction phase carried out by the company's in-house project team, and a final walkthrough to confirm the finished work meets the agreed specifications. The same process is applied across the company's kitchen and bathroom remodeling projects to keep design, scheduling, and installation under one point of contact throughout a project's timeline, from the first measurement to the last piece of trim.

The basement division operates alongside the company's kitchen and bathroom remodeling services, which include cabinet and countertop installation, custom vanities, flooring, and steam shower installations. GBC Kitchen & Bath's broader remodeling services, including its work as a bathroom remodeling contractor across the Washington, D.C. metro area, were previously detailed in the company's newsroom announcement covering its comprehensive service offerings for Northern Virginia homeowners.

GBC Kitchen & Bath reports more than 6,000 customers served across its service area, which spans Northern Virginia, suburban Maryland, and Washington, D.C. The company is licensed and insured and provides a three-year warranty on completed projects. It has been recognized by Angie's List and Houzz as a home improvement contractor in the region, and its showrooms display cabinet, countertop, flooring, and vanity samples that customers can review in person during the design phase of a project.

Homeowners interested in a basement remodeling project can schedule a free consultation with GBC Kitchen & Bath's design team, either by visiting one of the company's four showroom locations or by requesting a virtual meeting. The company also offers on-site estimates for basement renovation work,

kitchen and bathroom remodeling, and related cabinet and countertop projects across its Virginia, Maryland, and D.C. service area, with project timelines and material selections discussed during the initial consultation.

GBC Kitchen & Bath is located at 5601 General Washington Dr., Unit H, Alexandria, VA 22312, and can be reached at +1-844-644-4422 or info@gbcdc.com .
