PRESS RELEASE

GBC Kitchen and Bath Announces Expanded Kitchen Remodeling Services for Northern Virginia Homeowners

GBC Kitchen and Bath - Ashburn

January 13, 2026

GBC Kitchen and Bath, a full-service home renovation company serving Ashburn and surrounding Northern Virginia communities, announces the expansion of its comprehensive remodeling services to meet growing demand from homeowners seeking professional kitchen and bathroom transformations. The company's enhanced service offerings include advanced 3D design visualization technology and dedicated project management support for residential renovation projects.

The expansion comes as Northern Virginia experiences continued growth in home improvement investments, with homeowners increasingly seeking single-source solutions for their renovation needs. GBC Kitchen and Bath now provides complete project coordination from initial design consultation through final installation, eliminating the need for homeowners to coordinate multiple contractors.

"Homeowners today want a streamlined renovation experience that delivers professional results without the typical stress and complexity of managing multiple vendors," said Burak Sahin, Lead Designer at GBC Kitchen and Bath. "Our integrated approach means clients work with one dedicated project manager throughout their entire Kitchen Remodeling project, ensuring consistent communication and accountability from start to finish."

GBC Kitchen and Bath distinguishes itself through its use of in-house installation teams rather than subcontractors, providing greater quality control and project consistency. The company maintains full licensing, insurance, and bonding in all service areas, which include Ashburn, Leesburg, Herndon, Chantilly, Centreville, Reston, Sterling, Great Falls, Fairfax, McLean, and communities within a 30-mile radius.

The company's comprehensive services encompass kitchen renovations, Bathroom Remodeling , basement transformations, and home additions. Each project begins with professional design consultation utilizing 3D visualization technology, allowing homeowners to preview their renovated spaces before construction begins. This technology-driven approach helps clients make informed decisions about layouts, materials, and finishes while maintaining budget control.

Recent industry recognition underscores the company's commitment to excellence, including Best of Houzz 2016, Angie's List Super Service Award 2015, and features in The Washington Post. These accolades reflect the satisfaction of more than 6,000 customers served across Virginia, Maryland, and Washington D.C. since the company's establishment in 2008.

The company offers flexible financing options to make home renovations accessible to a broader range of homeowners. All projects include a two-year workmanship warranty, demonstrating confidence in the quality of craftsmanship and materials used. Lead Designer Burak Sahin heads the design team, bringing professional expertise to each project's aesthetic and functional planning.

As a Kitchen Remodeling Contractor , GBC Kitchen and Bath provides extensive product selection including custom cabinetry, countertops in granite and natural stone, vanities, flooring options, and specialty features such as steam showers. The Ashburn showroom displays various design styles and material options, allowing clients to experience products firsthand while consulting with design professionals.

GBC Kitchen and Bath operates from its Ashburn showroom location, serving as a resource center for homeowners, real estate professionals, interior designers, and contractors throughout Northern Virginia. The company's growth reflects the increasing demand for professional renovation services that combine quality craftsmanship with efficient project management and transparent communication throughout the renovation process.
