PRESS RELEASE

GBC Kitchen and Bath Announces Expanded Kitchen Remodeling Services Throughout Sterling, Virginia

GBC Kitchen and Bath - Ashburn

November 13, 2025

GBC Kitchen and Bath, a licensed remodeling company serving the Washington D.C. metropolitan area for nearly two decades, announced expanded service coverage throughout Sterling, Virginia, bringing comprehensive kitchen and bathroom renovation solutions to area residents. The expansion addresses growing demand for professional remodeling services in Northern Virginia communities.

The company's Sterling service expansion encompasses complete Kitchen Remodeling Sterling solutions, including cabinet installation, countertop replacement, flooring updates, and full kitchen renovations. Each project incorporates three-dimensional design consultation, permit acquisition, product selection assistance, and professional installation performed by in-house staff rather than subcontractors.

Alan Karakas, a spokesperson from GBC Kitchen and Bath, stated, "Sterling homeowners have expressed strong interest in our comprehensive approach to remodeling projects. Our expansion into this community allows us to bring nearly twenty years of experience and our commitment to quality craftsmanship to more Northern Virginia residents. We assign dedicated project managers to oversee every aspect of the renovation process, from initial design through final installation."

The company has completed projects for more than 6,000 customers across Virginia, Maryland, and Washington D.C. since its establishment. GBC Kitchen and Bath maintains licenses, insurance, and bonding in all counties it serves, operating showrooms in Alexandria, Ashburn, Columbia, and Rockville. The Sterling service area represents a natural extension of the company's existing Northern Virginia presence.

Bathroom Remodeling Sterling services offered by the company include fixture updates, tile work, vanity installation, and complete bathroom overhauls. The company's process ensures each project receives personalized attention through dedicated project management, with timelines and specifications determined during initial consultation appointments.

The company's showroom locations provide opportunities for customers to view product selections and meet with design consultants. Showrooms feature displays of cabinetry, countertops, fixtures, and tile options available for remodeling projects. Design consultations include three-dimensional rendering services to help customers visualize completed projects before construction begins.

GBC Kitchen and Bath has received recognition, including Best of Houzz 2016, Angie's List Super Service 2015, and acknowledgment from The Washington Post. The company maintains customer review ratings averaging five stars across multiple platforms, reflecting consistent service quality throughout its service area.

GBC Kitchen Contractor Sterling provides a two-year workmanship warranty on all remodeling projects, covering kitchen, bathroom, and other residential renovation work. This warranty policy applies to all projects undertaken throughout the expanded service area, demonstrating the company's confidence in its craftsmanship and installation quality.
