PRESS RELEASE

GBC Kitchen and Bath Expands Bathroom Remodel Services in Ashburn, VA

GBC Kitchen and Bath - Ashburn

November 05, 2025

GBC Kitchen and Bath - Ashburn has expanded its bathroom remodeling services to accommodate increased demand from homeowners across Northern Virginia seeking professional renovation solutions. The expansion includes enhanced 3D design capabilities and additional in-house installation teams to serve Ashburn, Leesburg, Herndon, Chantilly, Centreville, Reston, Sterling, Great Falls, Fairfax, McLean, and surrounding communities within a 30-mile radius.

The company's Ashburn showroom, located at 44031 Ashburn Shopping Plaza, now features updated displays showcasing the latest trends in bathroom design, including steam showers, custom vanities, and natural stone countertops. This expansion comes as the remodeling industry experiences sustained growth, with homeowners increasingly investing in bathroom upgrades to enhance both functionality and home value.

"We've seen remarkable growth in requests for Bathroom Remodel Ashburn VA projects over the past year," said Alan Karakas, a spokesperson from GBC Kitchen and Bath - Ashburn. "Our expansion allows us to maintain our commitment to quality while reducing project timelines for our clients. Every project reflects our dedication to craftsmanship and personalized service that has earned us recognition from Angie's List, Houzz, and The Washington Post."

The expanded services include comprehensive Bathroom Remodeling solutions ranging from powder room updates to master bathroom transformations. Each project begins with a detailed consultation where the company's design team, led by Lead Designer Burak Sahin, works closely with clients to understand their vision and create customized 3D renderings that allow homeowners to visualize their renovated spaces before construction begins.

GBC Kitchen and Bath differentiates itself through its all in-house installation approach, eliminating the uncertainties often associated with subcontracted work. The company provides a two-year workmanship warranty on all projects and maintains full licensing, insurance, and bonding in all counties served. Dedicated project managers oversee each renovation from design through completion, ensuring transparent communication throughout the process.

The company has also introduced flexible financing options to make bathroom renovations more accessible to a broader range of homeowners. These financing solutions complement the company's commitment to providing affordable packages without compromising quality or craftsmanship.

With over 6,000 satisfied customers served throughout its history, every GBC Bathroom Remodel Ashurn project reflects the company's dedication and personalization. The company's expertise extends beyond bathrooms to include kitchen and basement remodeling, as well as home additions. The Ashburn showroom displays a comprehensive selection of cabinets, countertops, vanities, flooring options, and specialty features including steam showers.
