

PRESS RELEASE

GBC Kitchen and Bath Ashburn Details 3D Kitchen Planning

GBC Kitchen and Bath - Ashburn

October 22, 2026

ASHBURN, VA — October 22, 2026 — GBC Kitchen and Bath Ashburn , the Loudoun County showroom of design-build remodeler GBC Kitchen & Bath, has outlined how homeowners can plan a full kitchen renovation in 3D and approve every selection before demolition begins. The approach supports the company's Kitchen Remodeling Ashburn services for homeowners in Ashburn, Leesburg, Sterling, Herndon, Reston, and Chantilly.

According to the company, each kitchen is designed with 3D visualization so homeowners can review the layout, cabinetry, and finishes before construction starts. At the Ashburn showroom, clients compare cabinet lines including Medallion, Forevermark, Waypoint, Fabuwood, Design-Craft, Marsh, and Marquis, alongside granite, quartz, and natural stone countertops, tile, and hardware.

Projects can include custom layouts, island design and construction, full-height quartz backsplashes, under-cabinet and recessed lighting, plumbing and fixture upgrades, new flooring, and appliance integration. For homeowners who want a more open floor plan, GBC also handles load-bearing wall removal. One project manager coordinates design, demolition, plumbing, electrical, cabinetry, countertops, and finish work.

Burak Sahin at GBC Kitchen and Bath Ashburn, said: "Most of the stress in a kitchen remodel comes from decisions made too late. When homeowners can see the finished kitchen in 3D and hold the actual cabinet doors and countertop samples in our showroom, they make those choices once, and the construction phase moves much more smoothly."

Each written proposal includes material allowances for every category, so homeowners can see how cabinet, countertop, tile, and fixture choices affect the budget. GBC applies for permits and coordinates inspections with the local jurisdiction, and on-site work typically runs several weeks, with a project-specific schedule provided at consultation. Completed kitchens are covered by a three-year workmanship warranty.

The kitchen planning update follows the Ashburn showroom's recent announcement on basement remodeling for Loudoun County homeowners. Kitchen, bathroom, and basement projects can be planned together, which allows cabinetry, countertops, and fixtures to be coordinated across rooms.

GBC Kitchen & Bath has served Northern Virginia, Maryland, and Washington, D.C. since 2001 and reports more than 6,000 customers. The Ashburn showroom at 44031 Ashburn Shopping Plaza is open Monday through Friday from 9 a.m. to 6 p.m. and Saturday from 10 a.m. to 4 p.m.

About GBC Kitchen & Bath

GBC Kitchen & Bath is a licensed, insured, and bonded design-build remodeler founded in 2001, specializing in kitchen, bathroom, and basement renovations from four showrooms in Northern Virginia and Maryland.
