

PRESS RELEASE

GBC Kitchen and Bath Expands Kitchen Remodeling in Ellicott City

GBC Kitchen and Bath - Columbia

October 10, 2026

ELLCOTT CITY, MD — October 10, 2026 — GBC Kitchen and Bath , a design-build remodeling company serving the Washington, D.C. metropolitan area since 2001, has expanded its kitchen remodeling in Ellicott City for homeowners across Howard County. The service is supported by the company's Columbia, Maryland showroom, located on Berger Road and reached from Ellicott City by Route 29.

The expanded service covers projects ranging from cosmetic updates to full kitchen renovations. According to the company, common requests in Ellicott City include opening closed-off layouts in older homes, relocating sinks and appliances, replacing cabinetry, installing new countertops and flooring, and updating electrical and gas service. When a layout change involves removing a wall, the design team evaluates whether the wall is load-bearing and how plumbing and utilities will be rerouted before work is scheduled.

GBC Kitchen and Bath serves neighborhoods throughout the area, including Historic Ellicott City, Turf Valley, Waverly Woods, Dunloggin, Font Hill, Valley Mede, Centennial, and Taylor Village, as well as nearby Columbia.

Each project follows a five-step process. It begins with a free, no-obligation design consultation at the homeowner's residence or the Columbia showroom, followed by a 3D design and a fixed-scope quote. Where required, the company files permits with the Howard County Department of Inspections, Licenses and Permits. Construction then moves through demolition, rough plumbing, electrical, and framing work, and finish installation, and concludes with a walk-through to confirm that the completed kitchen matches the approved design. A single project manager coordinates all trades throughout the project.

The company publishes estimated 2026 price ranges for Ellicott City kitchens. Cosmetic refreshes typically range from \$25,000 to \$45,000, mid-range full remodels from \$55,000 to \$85,000, and luxury or full gut renovations from \$90,000 to more than \$150,000. Layout changes, cabinetry level, and material selections are the main factors that affect cost, and permit work is listed as a separate line item. For homes built before 1978, work that disturbs painted surfaces follows the EPA's Renovation, Repair and Painting Rule for lead-safe practices.

Homeowners in Ellicott City can also combine a kitchen project with bathroom remodeling , basement remodeling, or vanity replacement under the same team. The company's bathroom work includes custom showers and tile, frameless glass, freestanding tubs, steam showers, heated floors, and accessibility modifications for aging in place.

GBC Kitchen and Bath provides a three-year workmanship warranty on completed kitchen, bathroom, and basement projects. The company operates four showrooms in Alexandria and Ashburn, Virginia, and Rockville and Columbia, Maryland, and reports serving more than 6,000 customers.

Ellicott City homeowners can request a free estimate online or by calling the Columbia showroom at (410) 417-6060.
