

Ellicott City Remodeling

GBC Kitchen and Bath - Columbia · September 01, 2026

COLUMBIA, MD – August 22, 2026 –

GBC Kitchen and Bath, a design-build renovation company serving the Washington D.C. metropolitan area since 2001, announced today the expansion of its kitchen and bathroom renovation services to homeowners throughout Ellicott City, Maryland. The expansion is coordinated through the company's Columbia showroom, which has served the surrounding Howard County community for years and now formally extends its full-service remodeling capabilities to Ellicott City residents.

Homeowners in Ellicott City have often found it difficult to locate a single contractor able to manage an entire renovation from design through installation, typically coordinating separate designers, permit offices, and installation crews on their own. That kind of fragmented project management has remained a common source of delays and cost overruns as renovation demand has grown across Howard County. GBC Kitchen and Bath's expanded presence addresses this gap by offering in-house project management for every phase of a remodel, eliminating the need for residents to juggle multiple vendors.

The company's Kitchen remodeling in Ellicott City services include custom cabinetry, countertop fabrication, and 3D design visualization, allowing homeowners to preview their space before construction begins. Bathroom remodeling in Ellicott City projects follow the same design-first approach, covering everything from vanity and fixture upgrades to full spa-style renovations, all backed by the company's three-year workmanship warranty. Every project is completed by in-house, licensed, and insured trade professionals rather than subcontractors, giving homeowners a single point of accountability throughout the renovation.

“Ellicott City homeowners have been visiting our Columbia showroom for years, so extending our full remodeling services to their community was a natural next step,” said a spokesperson for the Columbia Showroom. “Our dedicated project managers handle design, permitting, and installation as one continuous process, so clients aren't left coordinating separate contractors on their own. We wanted Ellicott City residents to have the same showroom experience and hands-on design support that our Columbia clients already rely on.”

Remodeling in Ellicott City now falls fully within the service radius of GBC's Columbia showroom, joining Columbia, Silver Spring, and Bethesda as communities the location actively serves. The showroom allows homeowners to browse cabinetry, countertop, and flooring selections in person while consulting with design professionals about project scope and budget, streamlining the early planning stages of a renovation.

About GBC Kitchen and Bath:

Since 2001, GBC Kitchen and Bath has completed projects for more than 6,000 clients across Virginia, Maryland, and Washington D.C., earning recognition including Best of Houzz 2025. The company operates four showrooms in Alexandria, Ashburn, Rockville, and Columbia, each offering the same in-house project management standard now available to Ellicott City homeowners.

Homeowners in Ellicott City interested in a free design consultation can visit the Columbia showroom or schedule an estimate online at gbckitchenandbath.com/service-areas/columbia .
