PRESS RELEASE

GBC Kitchen and Bath Columbia LLC Announces Expanded Kitchen Remodeling Services for Howard County Homeowners

GBC Kitchen and Bath - Columbia

April 06, 2026

GBC Kitchen and Bath Columbia LLC, a full-service home renovation specialist serving the Maryland, Virginia, and Washington D.C. metropolitan areas, announces the expansion of its comprehensive remodeling services to accommodate increasing demand from homeowners throughout Howard County. The company's Columbia showroom now features enhanced design consultation capabilities and an expanded selection of materials for kitchen and bathroom renovation projects.

Established in 2008, the company has completed more than 6,000 successful renovation projects across the region, maintaining a consistent 5-star rating from customers. The expansion addresses the growing need for professional renovation services as homeowners increasingly seek to update their living spaces with modern amenities and improved functionality.

"The demand for Kitchen Remodeling Columbia has grown significantly as homeowners recognize the value of professional renovation services," said a representative from the Columbia Showroom. "Our expanded capabilities allow us to provide even more comprehensive solutions, from initial design concepts through final installation, ensuring each project meets the highest standards of quality and craftsmanship."

The company specializes in complete kitchen and bathroom transformations, offering a full-service approach that includes 3D design visualization, permit handling, material selection, and professional installation. Each project begins with a detailed consultation where homeowners can explore design options and materials at the showroom, followed by comprehensive project planning that addresses all aspects of the renovation process.

A key differentiator for GBC Kitchen and Bath Columbia is its commitment to using in-house installers rather than subcontractors. This approach ensures consistent quality control and accountability throughout each project. Every renovation includes a dedicated project manager who oversees the entire process, maintaining clear communication with homeowners from initial consultation through project completion.

The Columbia showroom serves as a resource center where homeowners can explore current design trends and receive expert guidance on material selection. The facility features extensive displays of cabinet styles, countertop materials including granite and natural stones, flooring options, and various design elements. This hands-on experience allows customers to visualize their renovation projects before work begins.

Beyond Kitchen Remodeling Columbia services, the company also specializes in Bathroom Remodeling Columbia, offering solutions ranging from simple updates to complete bathroom overhauls. Additional services include basement remodeling, custom closet solutions, and the installation of specialized features such as steam showers.

The company backs all kitchen, bathroom, and basement remodeling projects with a two-year workmanship warranty, providing additional assurance for homeowners undertaking major renovation projects. As a fully licensed, insured, and bonded contractor, the company has earned recognition from The Washington Post for its renovation work.

GBC Kitchen and Bath Columbia LLC continues to serve the broader Maryland region from its Columbia location, with additional showrooms in Rockville, Alexandria, and Ashburn. With over 15 years of industry experience, the company remains committed to delivering cost-effective renovation solutions without compromising quality, helping homeowners throughout Howard County and surrounding areas transform their living spaces through professional design and expert craftsmanship.
