PRESS RELEASE

GBC Kitchen and Bath Columbia LLC Expands Full-Service Kitchen Remodeling Solutions to Meet Growing Demand

GBC Kitchen and Bath - Columbia

July 13, 2026

GBC Kitchen and Bath Columbia LLC, a leading home renovation specialist serving Howard County and the greater Maryland area, announces the expansion of its comprehensive remodeling services to address increasing demand for professional kitchen and bathroom renovations in the region. The company's Columbia showroom continues to serve as a resource center for homeowners seeking complete renovation solutions backed by over 15 years of industry expertise.

Established in 2008, the company has completed more than 6,000 renovation projects across Maryland, Virginia, and Washington D.C., maintaining a commitment to providing homeowners with a streamlined renovation experience through its full-service approach. The expansion of services comes as homeowners increasingly seek single-source solutions for their Kitchen Remodeling Columbia MD projects, eliminating the complexity of coordinating multiple contractors.

"The demand for comprehensive renovation services has grown significantly as homeowners recognize the value of working with a single provider who manages every aspect of their project," said a representative from the Columbia Showroom. "Our integrated approach, which includes 3D design visualization, permit handling, product selection, and installation by our in-house teams, provides homeowners with the confidence that their project will be completed efficiently and to the highest standards."

The company's approach to Bathroom Remodeling Columbia MD encompasses complete project management from initial design consultation through final installation. Each project is assigned a dedicated project manager who oversees all aspects of the renovation, ensuring transparent communication and adherence to timelines. This systematic approach has earned the company recognition in The Washington Post and consistently high customer satisfaction ratings.

Beyond kitchen and bathroom renovations, GBC Basement Remodeling services transform underutilized spaces into functional living areas, entertainment rooms, or rental units. The company's comprehensive service portfolio includes custom cabinetry, countertop installation featuring granite and natural stone options, flooring solutions, and specialized installations such as steam showers and custom closet systems.

The Columbia showroom, located in Howard County, serves as a design center where homeowners can explore material options, work with professional designers, and visualize their renovation projects using advanced 3D technology. The facility showcases various design styles and finishes, allowing clients to make informed decisions about their renovation investments.

All renovation projects completed by the company include a two-year workmanship warranty, reflecting confidence in the quality of craftsmanship provided by its in-house installation teams. The company maintains full licensing, insurance, and bonding credentials, ensuring homeowners receive professional service that meets all regulatory requirements.
