Grandmix Store Adds 2-Tier Bathroom Shelf for Towel Storage

Grandmix Store

October 10, 2026

DOVER, DE — October 10, 2026 — Grandmix Store , an online retailer of made-to-order metal home decor and storage, has added a wall-mounted 2-Tier Bathroom Shelf, Towel Storage for Bathroom to its bathroom collection. The shelf is designed to hold folded towels and everyday bathroom items on the wall, freeing up counter, cabinet, and floor space in smaller rooms.

The shelf combines a powder-coated metal frame with two light wood-plank shelves. Each tier can hold folded bath towels, hand towels, toiletry baskets, or decorative items. The design is intended for primary bathrooms, powder rooms, and guest suites where a linen closet is limited or located outside the bathroom. Because the shelves are open, folded towels stay within reach of the shower, tub, or sink and can be restocked without opening a cabinet, while the wood planks add a warmer accent to tile and painted walls.

According to the company, the shelf is available in four sizes to suit different wall spaces: 20 by 10 by 6 inches, 24 by 10 by 6 inches, 28 by 12 by 6 inches, and 36 by 18 by 8 inches. Shoppers can choose from four frame finishes: black, white, gold, and satin nickel. These options allow the shelf to be matched with existing faucets, towel bars, and cabinet hardware. Prices range from \$129 to \$209 depending on size.

The shelf mounts to the wall through two integrated keyholes on the back of the frame, and mounting screws and wall anchors are included. Grandmix recommends using a level, drilling pilot holes, and selecting anchors suited to the wall material and the expected load. For tiled walls, the company advises using a carbide-tipped drill bit at low speed. Installation requires only basic household tools.

The product page currently shows an average rating of 4.6 out of 5 from 67 customer reviews. A matching toilet paper and mobile phone holder is also available for shoppers who want coordinated bathroom accessories.

The bathroom shelf joins a storage range that Grandmix has expanded throughout the year. The company recently broadened its Indoor Firewood Rack collection ahead of the heating season, and its bathroom category now includes more than 50 towel rack and holder designs. Other storage lines include entryway coat racks, shoe racks, and luggage stands, along with a wall art catalog of more than 190 metal designs.

Grandmix offers free shipping to the United States, Canada, the United Kingdom, and European Union countries, along with a 30-day return policy and around-the-clock customer support. The company reports serving more than 10,000 customers and has collected more than 1,600 customer photo reviews across its catalog.

The 2-tier bathroom shelf is available now through the Grandmix Store website.
