

Wholesale Kitchen Cabinets TN 2nd PR

KNB Cabinets Wholesale TN · September 02, 2026

KITCHEN & BATH TENNESSEE

Nashville, TN — September 2, 2026 — KNB Cabinets, a Wholesale Kitchen Cabinets TN supplier serving home builders, interior designers, and renovators, today announced continued growth of its dealer network across the greater Nashville area, including The Gulch and East Nashville. The company, backed by a team with more than 40 years of combined cabinetry and kitchen-design experience, supplies contractors and dealers exclusively — it does not sell direct to retail homeowners.

KNB Cabinets says the expansion reflects rising demand from Nashville-area builders for a local wholesale partner that can move faster than importers while still hitting a competitive price point. The company keeps inventory on hand locally, offers free 3D renderings and itemized quotes within 24 to 48 hours, and provides white-glove delivery directly to job sites and showrooms.

"We are more than a supplier — we are an extension of our dealers' teams," a company representative said. "Send us your measurements and our design team turns them into a photorealistic rendering and a detailed quote before the client has time to second-guess it. That is how we help our partners close jobs faster and protect their margins."

The company's Kitchen Cabinets line spans two core collections built to builder-grade standards — solid wood dovetail drawers, soft-close hardware, and plywood box construction standard across the range. Its Shaker collection remains the standard for traditional Nashville homes, while its Wholesale Euro Cabinets collection targets condos, apartments, and modern renovations with frameless, full-access construction in High Gloss, Matte, and Textured Woodgrain finishes.

In one recent Gulch condo renovation cited by the company, a dealer using KNB's Euro cabinet program quoted the project at roughly 33% below a comparable import-brand estimate and cut the delivery timeline from 12–14 weeks down to in-stock, same-week availability — allowing the developer to list the unit months ahead of schedule.

The company also points to its precision design process, accounting for every filler and end panel before production, and its broad style selection, from Shaker to sleek Euro finishes, as differentiators for contractors. One business client, MAYA LLC, called the team professional, responsive, and detail-oriented in a recent Google review.

KNB Cabinets has built a base of five-star Google reviews from both individual clients and business partners citing responsiveness, product quality, and on-time delivery. Nashville-area dealers, builders, and interior designers can apply for a wholesale dealer account through the company's website.

KNB Cabinets is a Nashville, Tennessee-based wholesale cabinet supplier serving home builders, kitchen dealers, interior designers, and renovators exclusively. The company offers Shaker and Euro-style cabinetry with free 3D rendering and quoting, wholesale dealer pricing, and job-site delivery across the greater Nashville area.
