PRESS RELEASE

NextDAY Cabinets Beltsville Showroom Expands Wholesale Cabinet Services for Maryland Contractors

NextDAY Cabinets Beltsville Showroom

March 05, 2026

NextDAY Cabinets Beltsville Showroom has expanded its professional design services and inventory selection to better serve contractors, dealers, and builders throughout the Maryland and DC Metro region. The Cabinet Store in Betsville now offers enhanced 3D design consultations at no additional cost, alongside an expanded selection of KCMA-certified cabinetry from nine premium manufacturers.

The expansion responds to increased demand from professional contractors seeking reliable wholesale Cabinets with faster lead times. The Beltsville location, situated at 5801 Ammendale Road, maintains one of the largest inventories in the region, enabling many orders to be fulfilled within three to five business days.

"Professional contractors need more than just quality products; they need a partner who understands project timelines and budget constraints," said a spokesperson for NextDAY Cabinets Beltsville Showroom. "Our expanded services ensure that builders and remodelers can access professional design support, competitive pricing, and rapid fulfillment all under one roof."

The showroom now features dedicated display areas for nine cabinet brands including Shiloh Cabinetry, Forevermark Cabinets, Mantra Cabinets, and Wolf Home Products. Each brand section showcases various door styles, finishes, and construction methods, allowing contractors to evaluate options for their specific project requirements. The facility also displays bathroom vanities, closet organization systems, and flooring solutions from MSI and Shaw Flooring.

Nextday Cabinets distinguishes itself through its commitment to solid wood construction across all product lines. Every cabinet carries KCMA certification, ensuring adherence to rigorous standards for durability, structural integrity, and environmental safety. This certification provides contractors with confidence when specifying products for both residential and commercial projects.

The enhanced design services include professional 3D renderings that help contractors present detailed visualizations to their clients. Design consultants work directly with trade professionals to create layouts that maximize both functionality and aesthetic appeal while staying within project parameters. These consultations remain complimentary, regardless of project size.

Volume pricing programs have been restructured to provide greater savings for dealers and contractors managing multiple projects. The company offers flexible options including warehouse pickup and job site delivery throughout Prince George's County, Montgomery County, and surrounding areas. Multi-family project developers receive specialized support for large-scale installations.

The Beltsville showroom operates Monday through Friday from 8:00 AM to 5:00 PM, with Saturday hours from 10:00 AM to 2:00 PM. Trade professionals can schedule appointments outside regular hours for project consultations.

NextDAY Cabinets operates six showroom locations throughout the Mid-Atlantic region, serving as a distributor of wholesale cabinets exclusively for contractors, dealers, and builders. The company specializes in providing all-wood kitchen cabinets, bathroom vanities, and related products with guaranteed lowest pricing and rapid fulfillment. Through direct factory relationships and streamlined operations, the company eliminates traditional supply chain delays while maintaining competitive pricing for trade professionals.
