PRESS RELEASE

NextDAY Cabinets Richmond Showroom Unveils Comprehensive Shiloh Cabinetry New Catalog for 2025

NextDAY Cabinets Richmond Showroom

October 30, 2025

NextDAY Cabinets Richmond Showroom has introduced an extensive 29-page showcase featuring the complete 2025 Shiloh Cabinetry collection, providing contractors, dealers, and builders in Central Virginia with expanded design options and enhanced construction specifications for residential and commercial projects.

The comprehensive shiloh cabinetry new catalog presents significant expansions to the product line, including 25 standard Sherwin-Williams paint colors with unlimited custom matching capabilities, nine premium wood species options, and over 50 door styles ranging from traditional to ultra-modern designs. The collection features three trending colors for 2025 - Shoji White, Quietude, and Rookwood Shutter Green - along with new Café and Slate Highlight techniques specifically suited for Richmond's diverse architectural landscape.

"The 2025 collection represents a substantial evolution in cabinet customization and quality construction," said Dogan (Logan) Goksoy, Sales Manager at NextDAY Cabinets Richmond. "With nine overlay and inset configurations, 40 decorative wood hood options, and custom furniture vanities, contractors can now offer their clients comprehensive kitchen-to-bath solutions that meet both traditional and contemporary design preferences."

The expanded shiloh cabinets collection incorporates 12 premium-quality features as standard, including five-eighths-inch hardwood dovetail drawers, Blum TANDEM soft-close mechanisms, and three-quarter-inch plywood shelving. Each cabinet carries KCMA certification and comes backed by a 10-year warranty, ensuring long-term durability and performance for residential and commercial installations.

A notable addition to the collection includes Quarter-Sawn and Rift-Cut White Oak options, along with Olde World hand-distressed and Aged finish techniques that complement Richmond's historic architecture while meeting modern design demands. The paint-perfect MDF options provide additional flexibility for projects requiring specific color matching or budget considerations.

The Richmond showroom, located at 3985 Deep Rock Road, serves as one of six NextDAY Cabinets locations throughout the region, offering contractors and designers hands-on access to the complete product portfolio. The facility provides professional 3D kitchen design services at no additional charge, enabling precise project visualization and specification development.

Beyond the Shiloh collection, the Richmond location maintains inventory from multiple cabinet brands, including Crestwood, Decora, Forevermark, Mantra, Marsh Furniture, Nations, Waypoint, and Wolf Home Products. The showroom also stocks complementary products such as Hardware Resources vanities, kitchen sinks, cabinet hardware, and bathroom fixtures to provide complete project solutions.

The made in USA cabinets featured in the Shiloh collection reflect NextDAY Cabinets' commitment to supporting domestic manufacturing while maintaining competitive pricing for the professional market. The company's wholesale distribution model ensures three to five-day lead times on most orders, addressing the time-sensitive needs of contractors and builders throughout Central Virginia.
