

PRESS RELEASE

United Cabinet Outlines Cabinet Series and Lead Times

United Cabinet

October 19, 2026

FUQUAY-VARINA, NC — October 20, 2026 — United Cabinet , a North Carolina kitchen and bath cabinet supplier, has outlined its four cabinet series and their lead times, giving dealers, contractors, builders, and homeowners a clear choice between fast-shipping stock lines and made-to-order custom cabinet options.

The Express Series is the company's fastest-moving wholesale cabinet line, offered in Shaker White, Shaker Gray, and Dune. Express cabinets are available flat-packed for next-day pickup or assembled, with assembled orders typically ready in three to five business days for white and Dune finishes and five to seven business days for gray.

For projects that call for more color choices, the Premium Series includes Westhighland White, Roycroft Pewter, In the Navy, and Tricorn Black, while the Luxury Series adds shades such as Clary Sage, Evergreen Fog, Realist Beige, Heron Plume, and Oceanside Blue. Premium and Luxury cabinets are built and finished in America, sold assembled, and typically ready in seven to 12 business days. Each line includes more than 400 items.

The Custom Series is available in both framed and frameless construction, with a lead time of about three weeks. Custom orders under \$1,500 require the purchase of a sample door so customers can confirm color and finish before production.

"Most of our dealers and contractors are working against a schedule, so knowing exactly when cabinets will be ready matters as much as price," said Kamil Ilter,

founder of United Cabinet. "Having stock lines that ship in days and a custom option in about three weeks lets them match the cabinet to both the budget and the build calendar."

The company's cabinets use plywood side panels joined to solid wood face frames with dovetail joinery, half-inch plywood backs, finished interiors, soft-close hinges, and full-extension drawer glides. Cabinet sides are natural-finished, and skin panels are available for exposed ends.

United Cabinet operates a showroom and distribution center of more than 40,000 square feet in Fuquay-Varina and ships nationwide. Dealers, contractors, and builders can register for wholesale pricing through the company's dealer program. The showroom is open Monday through Friday from 8 a.m. to 5 p.m.
